[ivanfernandezlimarquez.com](https://ivanfernandezlimarquez.com)

Software Engineering graduate passionate about building clean, user-friendly software. Specialised in **frontend and UX design**, backed by a solid full-stack foundation. Bilingual Spanish (native) / English (C1). Fast learner, quick to adapt to new technologies, with real experience dealing with clients, product and legacy code.

Prefer to explore the CV in 3D? [ivanfernandezlimarquez.com](https://ivanfernandezlimarquez.com) (code on Github).

## EXPERIENCE

### Click-IT — Developer

Barcelona · May - Present

- **La Farga:** vehicle and parking management for L'Hospitalet (Angular + Fastify), direct client contact.
- **GSharp:** internal CRM; went deeper into Django and integrated Microsoft's Planner API.
- **Kam (mesoestetic):** international market and competition management suite — campaigns, targets, catalogue.
- First backend in .NET/C#, refactoring and work on legacy code and bottlenecks.

### KnittedForYou — UX/UI & Frontend Design

Swedish startup · January - March

- Designed every [mockup](#) and the whole user flow in Figma.
- Implemented several screens as React components.

## FEATURED PROJECTS

### Scubex — Bachelor's Thesis

[scubex.vercel.app](#) · [github.com/lzshin/Scubex](https://github.com/lzshin/Scubex) · React MobX + Spring Boot + PostgreSQL

- Full-stack social network for scuba divers; design, development and deployment (Vercel + Railway).
- Google OAuth 2.0, species detection (GBIF API), dive weather forecasting (Open-Meteo).
- 137 unit tests, +90% code coverage.

### Orquesta Elegidos — Web design and development

[orquestraelegidos.com](#) · [github.com/lzshin/Elegidos](https://github.com/lzshin/Elegidos) · React + Vite + GitHub Pages

- Full website from scratch for a band with over 30 years on stage: design, self-updating news, Gmail contact form, CD on GitHub Pages.

### Interactive 3D portfolio

[ivanfernandezlimarquez.com](https://ivanfernandezlimarquez.com) · React 19 + Three.js + R3F + Drei

- Navigable 3D desk with an interactive CV, an animated business card and a music player.
- Load size optimised from 209 MB to 45 MB (WebP, mesh decimation, code splitting).

### Todo Jardín — Django online store

[jhonpgpi.eu.pythonanywhere.com](https://jhonpgpi.eu.pythonanywhere.com) · [github.com/lzshin/Todo-Jardin-Des](https://github.com/lzshin/Todo-Jardin-Des)

- Full online store for a garden shop: catalog, cart and checkout with the Braintree payment gateway.
- Own admin panel to manage products and orders.

## UNIVERSITY & PERSONAL PROJECTS

- [Truco Beasts](#) — Spring Boot + React card game (interface and animations).
- [Othello AI](#) — Keras CNN trained through MCTS self-play.
- [uvlhub](#) — dockerized Flask project, tests with Selenium and Locust.
- [CosmoCrush](#) · [QuizzieD](#) · [Space25](#) — hackathon/curiosity projects.

## EDUCATION

### B.Sc. in Software Engineering

University of Seville · June 2026 · GPA 7.03/10

### English C1

Language Institute, Univ. of Seville

## TECH STACK

### Languages

Python Java JavaScript TypeScript C#

### Frameworks / libraries

React Angular Spring Boot Django  
Flask .NET JUnit Keras Three.js R3F  
Framer Motion

### Tools

Git GitHub Actions Docker Vercel  
Railway Vite Figma CI/CD Scrum  
REST OAuth 2.0

## LANGUAGES

- Spanish — native
- English — C1

## OTHER

- Driving license
